Solutions for Smarter Business Security

powered by  **ALARM.COM**[®]

Smarter Business Security

Get awareness like never before with smarter solutions tailored to support a wide range of small and medium sized businesses, from single properties to multi-location enterprises. With professionally monitored security, access, energy management and video monitoring solutions, you get peace of mind knowing that your properties are protected and your businesses are running smoothly — no matter where you are.

With Smarter Business Security powered by Alarm.com you can:

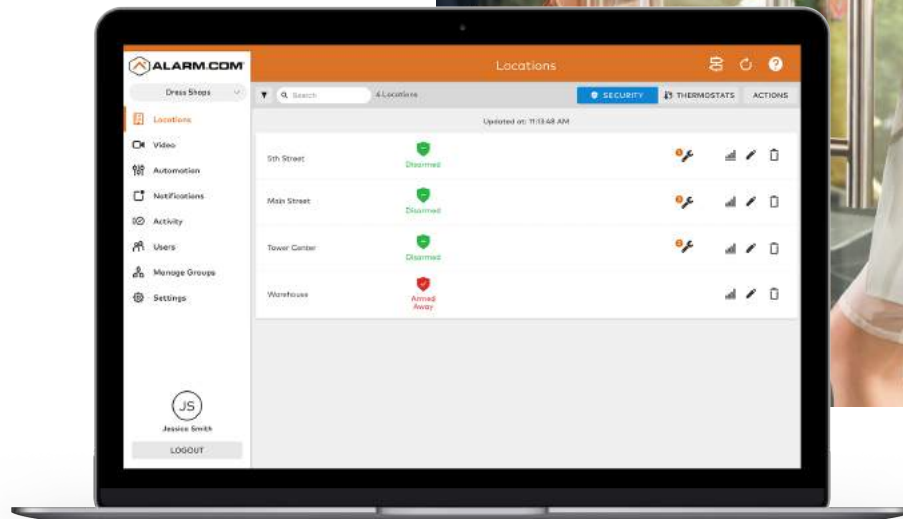

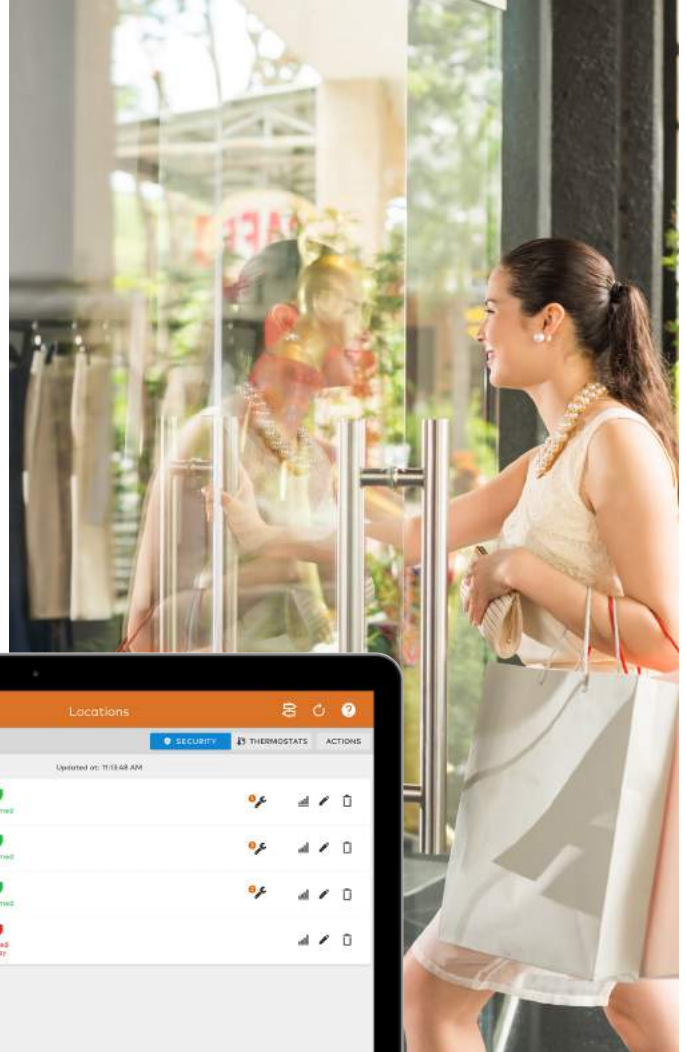

- Stay secure and connected
- Remotely manage key systems
- Save money through reduced energy use
- Easily manage employee access
- Keep an eye on inventory and equipment
- Protect employees and customers

Professional Grade Security

Reliable, professional monitoring ensures your business, inventory and equipment are always protected.

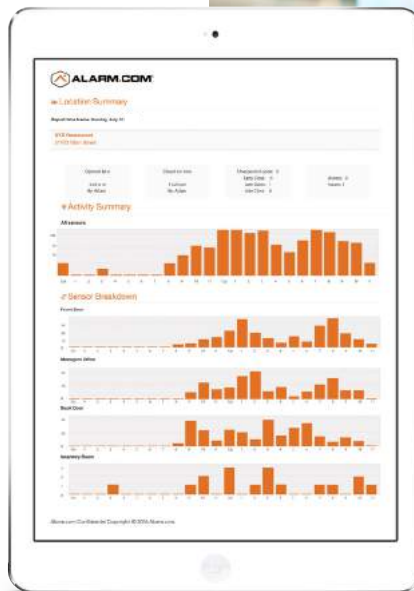

- Use auto-arming to ensure that your system is always armed when it should be
- Remotely cancel false alarms from anywhere
- Manage employee User Codes across multiple locations with ease
- Instantly remove User Code access for terminated employees
- Manage multiple sites in one centralized dashboard

Business Insights

Alarm.com business insights deliver critical information to help you run your business more efficiently.

- Receive daily and weekly reports that summarize critical information about your business across multiple locations
- Activity reporting analyzes customer traffic allowing you to:
 - Understand what your busiest hours are
 - Know when employees are opening the store
 - Maximize staffing efficiency
 - Track the impact of promotions on customer traffic
- Better understand arming activity with Open/Close reports
- Receive notifications if employees are arriving late or leaving early

OPEN

Video Monitoring

SEE EVERYTHING

Keep an eye on all of the important activity at your business. With single and multi-site viewing, live-streaming and recorded video, it's easy to monitor the key aspects of your business when you can't be there.

RELIABLE & SECURE

Unlike traditional CCTV/DVR video surveillance systems, Alarm.com powered systems provide reliable, off-site storage that cannot be disabled by employees or damaged if your business experiences a fire or flood event.

CLOUD-BASED RECORDING

Secure, 24/7 cloud recording options eliminate the need for additional hardware and enable access to live and recorded video clips anytime.

Managed Access

IMPROVED CONTROL

Get a completely configurable and easy-to-manage access control solution for all business property types.

KNOW WHO'S COMING AND GOING

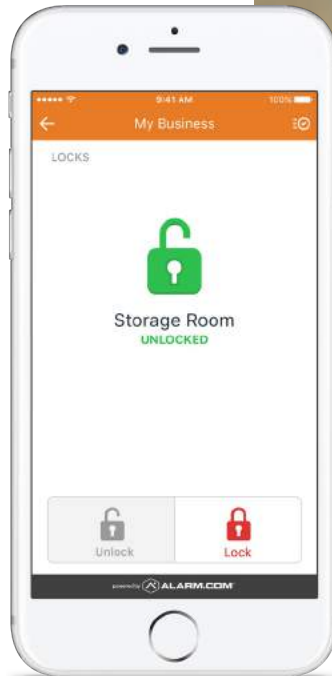

Integrated locks, controllers and card readers help you understand who's in and around the business at any time.

CONNECTED LOCKS

Commercial-grade locks help keep interior offices and back rooms secure.

REMOTE CONTROL

Remotely lock and unlock doors for staff and deliveries.

Energy Management

CLIMATE CONTROL

Control your smart thermostats automatically, and on-the-go. Keep your business at an appropriate temperature and prevent employees from making costly changes.

REDUCE ENERGY COSTS

Use thermostat schedules to automatically save money during closed hours, while ensuring that it's comfortable by the time staff arrive again in the morning.

IMPROVED PROPERTY MANAGEMENT

Get notified when the thermostat setting is changed or the refrigerator door is left open to manage temperatures and reduce energy waste.

SCHEDULED LIGHTING

Easily set up lighting schedules to keep your business safe and well lit, reducing liability risk.
